

# Palau Airlines takes flight in 2027.

Inaugural Launch:  
Q1 2027

First National Carrier  
of Palau

Strategic Master Plan  
& Route Blueprint

# Fleet deployment leverages the A320 series for maximum regional agility.

## Scheduled Operations Network

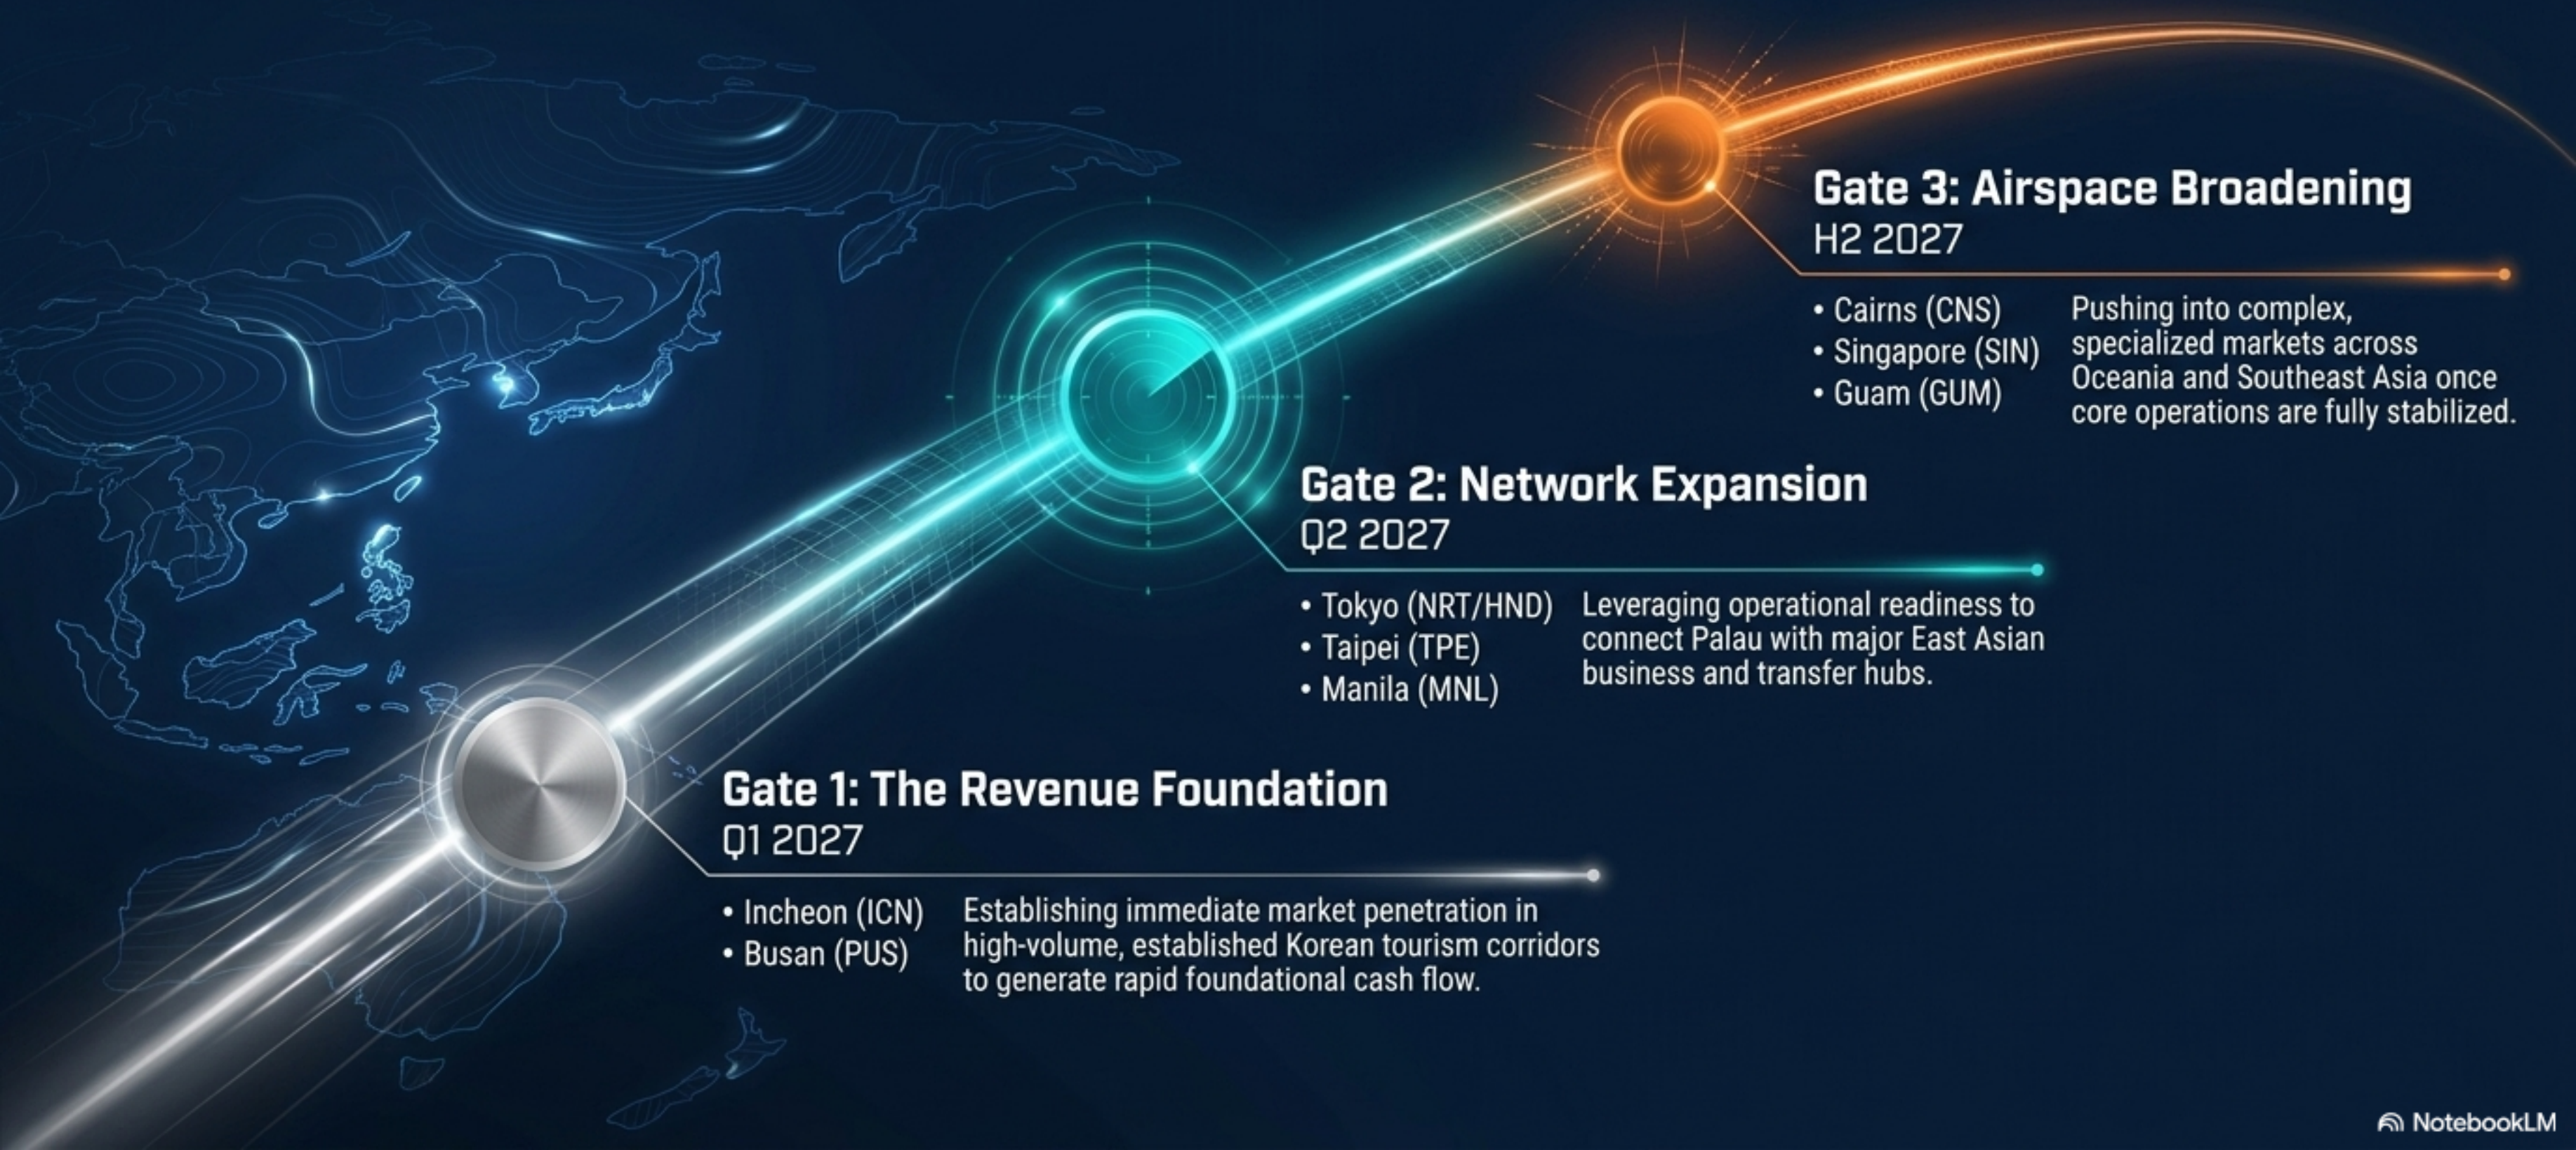

Core fleet utilizing the A320 Series. Ideal range-to-capacity ratio for capturing primary Asia-Pacific tourism corridors originating from Palau.

## Dynamic Charter Deployments

Dedicated charter operations targeting Hong Kong (HKG) and Macao (MACAO). Dynamically capturing seasonal, high-yield regional tourism spikes without disrupting the scheduled network.

The 2027 rollout scales systematically from established regional hubs to complex trans-equatorial routes.

### Gate 1: The Revenue Foundation Q1 2027

- Incheon (ICN)
  - Busan (PUS)
- Establishing immediate market penetration in high-volume, established Korean tourism corridors to generate rapid foundational cash flow.

### Gate 2: Network Expansion Q2 2027

- Tokyo (NRT/HND)
  - Taipei (TPE)
  - Manila (MNL)
- Leveraging operational readiness to connect Palau with major East Asian business and transfer hubs.

### Gate 3: Airspace Broadening H2 2027

- Cairns (CNS)
  - Singapore (SIN)
  - Guam (GUM)
- Pushing into complex, specialized markets across Oceania and Southeast Asia once core operations are fully stabilized.

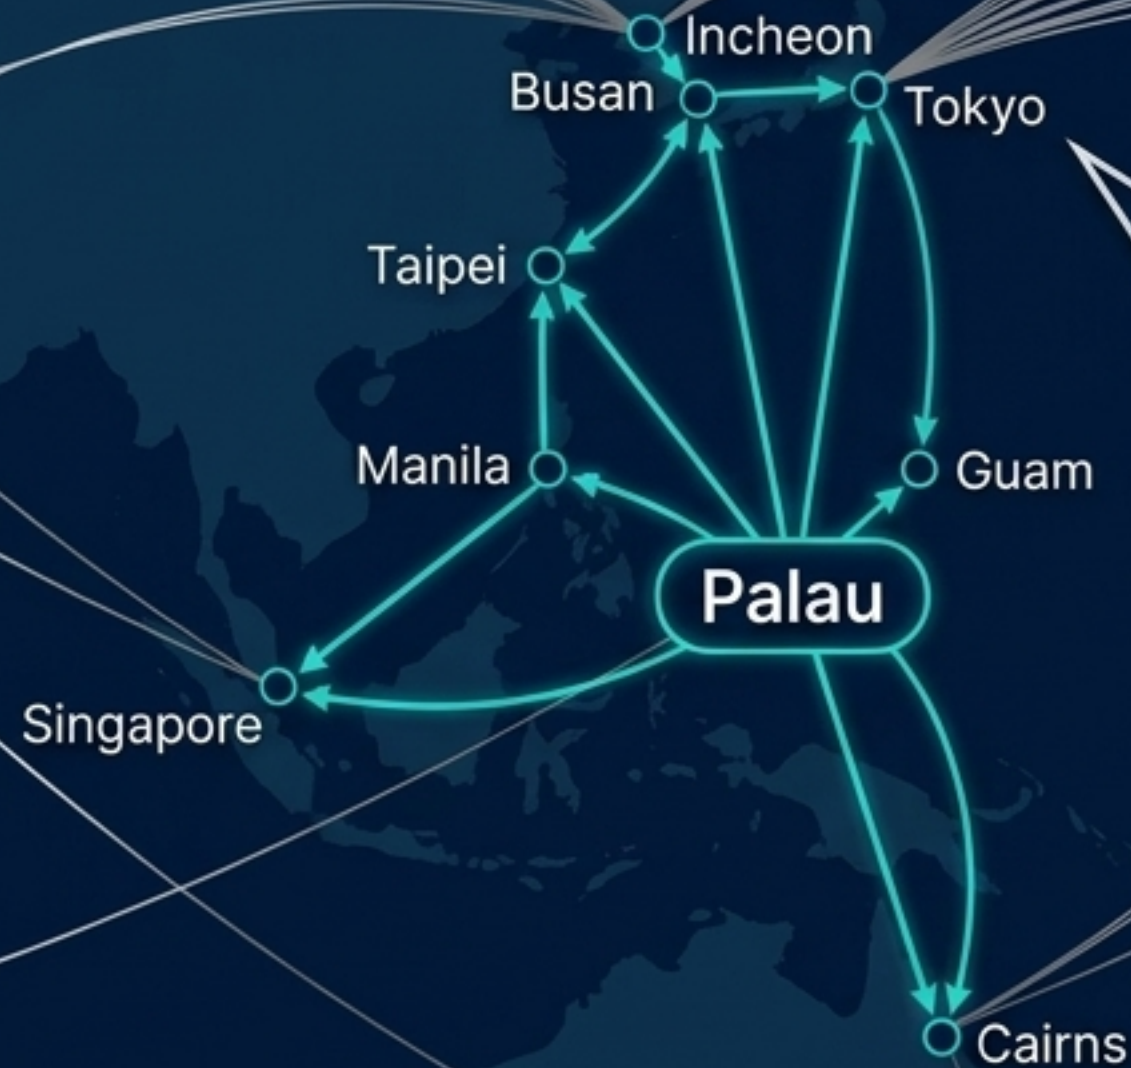

# A phased, outward expansion captures the primary Asia-Pacific tourism corridors

# Strategic codeshare agreements artificially multiply our regional footprint and commercial reach.

<b>Pillar 1: Palau Airlines as Operating Carrier</b>	<b>Pillar 2: Palau Airlines as Marketing Carrier</b>
<b>Focus Area:</b> Flights IN/OUT of Palau	<b>Focus Area:</b> Flights IN/OUT of Incheon (ICN)
<b>Strategic Partners:</b> Japan Airlines (JL), Korean Air (KE), Jin Air	<b>Strategic Partners:</b> Korean Air (KE), Japan Airlines (JL)
<b>Strategic Value:</b> We control the domestic gateway, the actual A320 aircraft metal, and the definitive passenger hardware experience, securing our position as the primary operator for inbound island traffic.	<b>Strategic Value:</b> We expand our network reach and sales capability by leveraging partner aircraft for global connectivity, effectively offering worldwide routing without the capital expenditure of widebody aircraft.

# The synergy between our organic fleet and partner networks creates exponential market access

**Global Connectivity Unlocked:**  
KE & JL Codeshares transform regional A320 routes into seamless global itineraries.

Result: Tier-1 airline market reach powered by a highly efficient, single-aisle cost base

# The long-term trajectory bridges the Asia-Pacific network directly to the United States.

Incheon (ICN)

Guam (GUM)

Saipan (SPN)

Honolulu (HNL)

U.S. West Coast

Securing the 2027 regional foundation establishes the operational authority and capital readiness required to execute deep trans-Pacific routing, ultimately connecting major Asian hubs directly to key American markets under the Palau Airlines banner.
